

CD44: TP73/CUT&RUN-supported TSS-local regulatory comparison
CD44_tss_stretch_1 · transcript-oriented –500/+200 bp windows

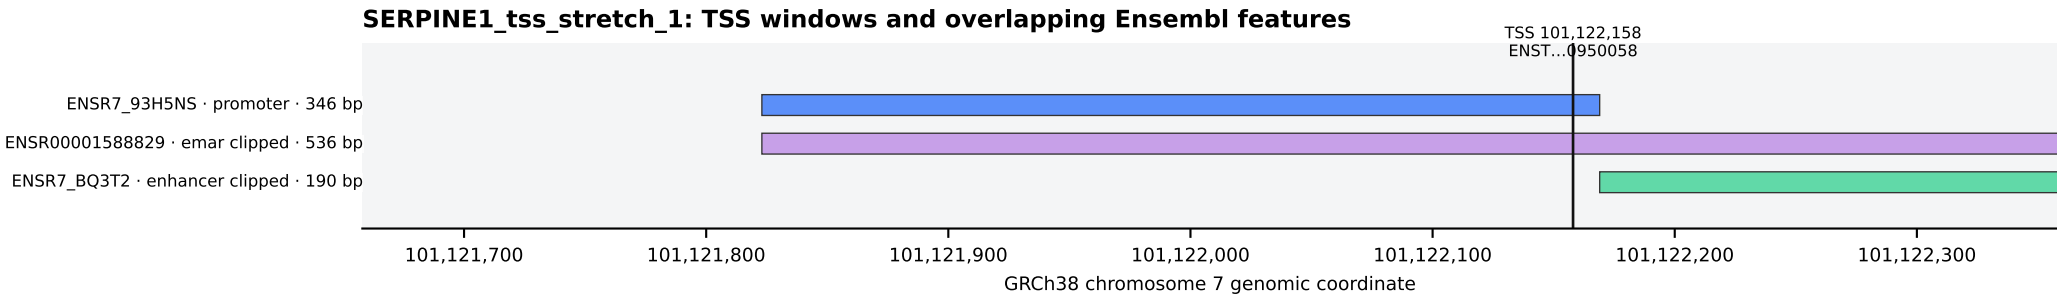

CUT&RUN BigWig lanes from the prior report (group-normalized display)

Promoterome recurrence by Ensembl feature intersection

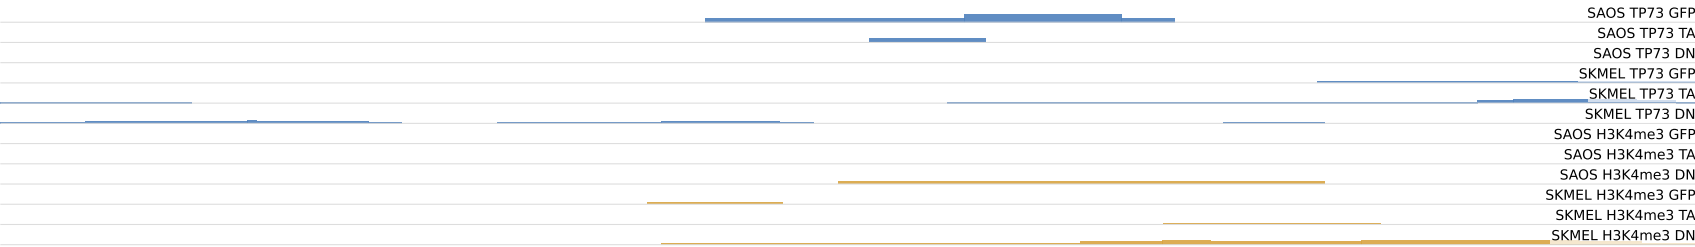

SERPINE1: TP73/CUT&RUN-supported TSS-local regulatory comparison
SERPINE1_tss_stretch_1 · transcript-oriented –500/+200 bp windows

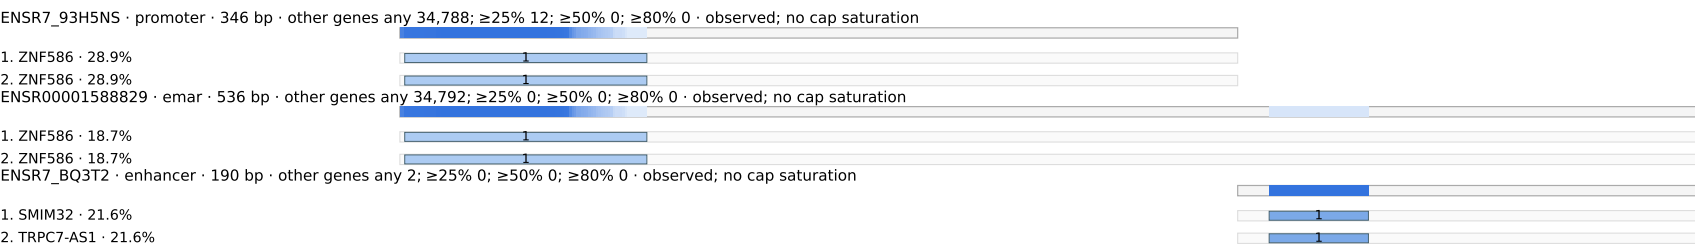

Candidate/cofactor TFBS predictions — one shared layer for this genomic stretch

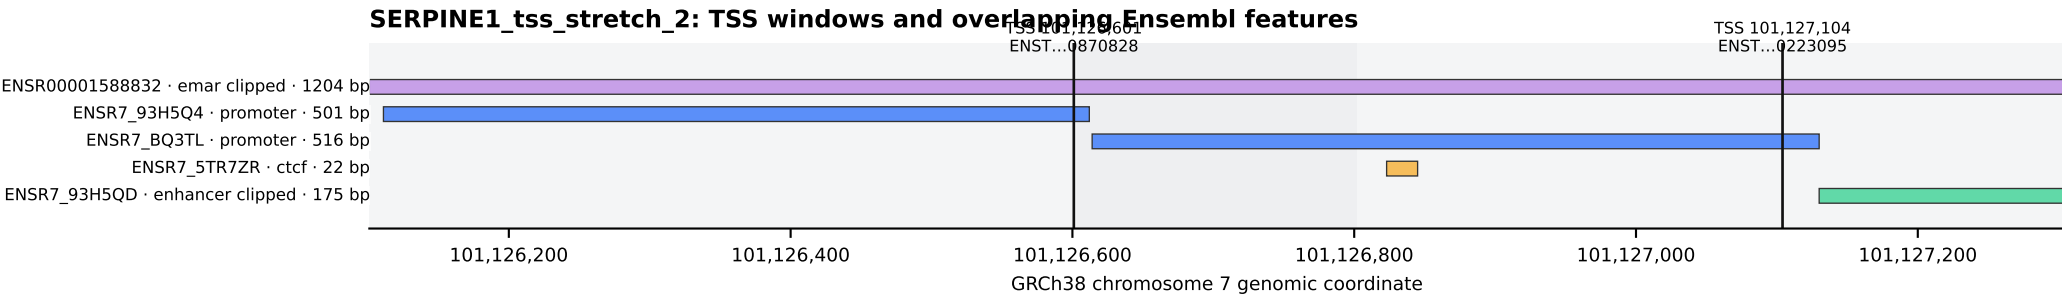

CUT&RUN BigWig lanes from the prior report (group-normalized display)

Promoterome recurrence by Ensembl feature intersection

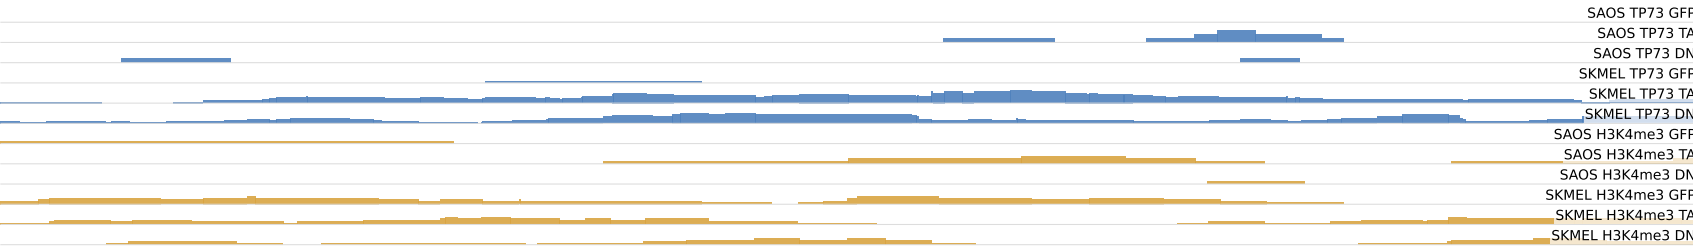

SERPINE1: TP73/CUT&RUN-supported TSS-local regulatory comparison
SERPINE1_tss_stretch_2 · transcript-oriented -500/+200 bp windows

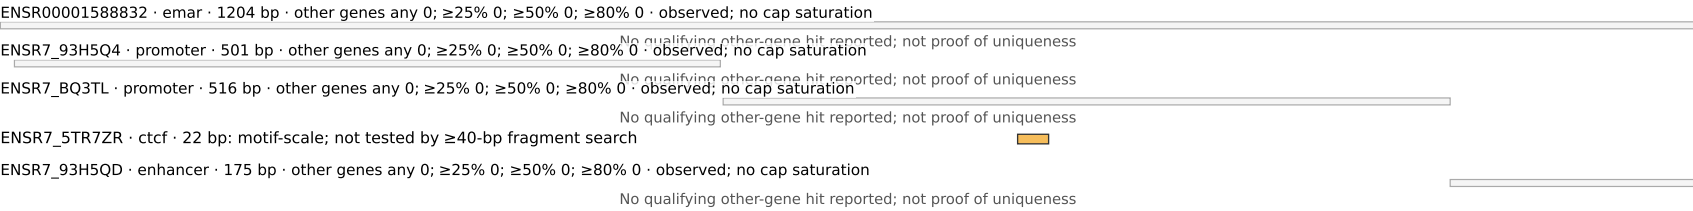

Candidate/cofactor TFBS predictions — one shared layer for this genomic stretch

CUT&RUN BigWig lanes from the prior report (group-normalized display)

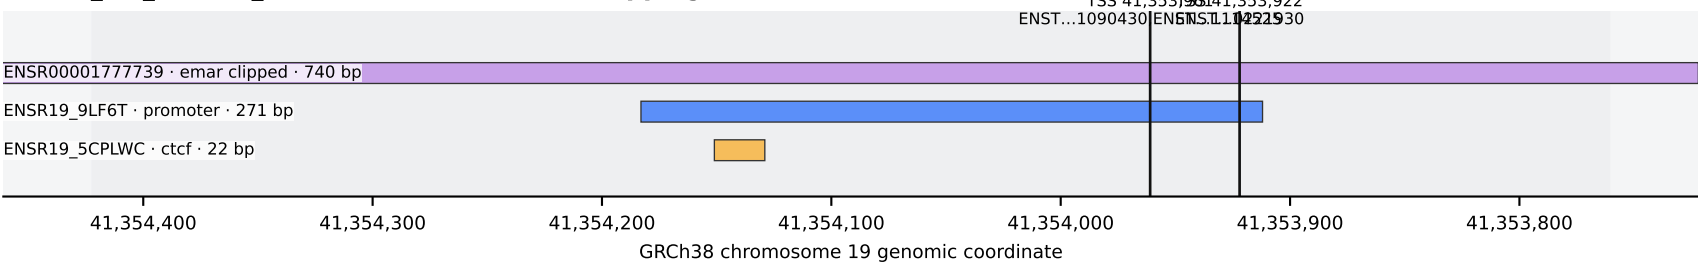

Promoterome recurrence by Ensembl feature intersection

TGFB1: TP73/CUT&RUN-supported TSS-local regulatory comparison

TGFB1_tss_stretch_1 · transcript-oriented –500/+200 bp windows

TGFB1_tss_stretch_1: TSS windows and overlapping Ensembl features

Candidate/cofactor TFBS predictions — one shared layer for this genomic stretch

CGGBP1

CUT&RUN BigWig lanes from the prior report (group-normalized display)

Promoterome recurrence by Ensembl feature intersection
